

Faaria Jessani Resume Summary

Faaria Jessani

AI Automation Consultant | PMP | Business-first AI workflow automation and AI support quality

Profile: Implementation-focused professional combining enterprise project management, SaaS onboarding, SOP/documentation, business analysis, and hands-on AI automation with Claude, n8n, Hermes, Gemini Search, and Google Workspace.

Relevant strengths

- AI workflow automation and practical AI adoption for non-technical teams.
- Quality-aware AI agent design: prompts, guardrails, handoff logic, tool usage, and structured outputs.
- Operational reporting: dashboards, summary CSVs, KPI monitoring, and executive-ready insights.
- Stakeholder-heavy delivery: requirements, documentation, rollout, adoption support, and risk management.

Selected AI projects

- Claude monthly sales analytics pipeline: CSV cleaning, merge validation, KPI summaries, HTML dashboards, and executive PPTs.
- n8n MCP CRM agent: natural-language CRUD actions on Google Sheets with get-before-update/delete safeguards.
- PORR multi-agent workflow: Problem, Options, Risks, Recommendation agents grounded by Gemini Search.
- AI Workflow Automation engagement: 4A AI Efficiency Method for assessing, aligning, automating, and adopting practical workflows.
